# MEKONG SOFA

*Mekong is a sofa with a singular style, where the exotic references and the contemporary allure that have always distinguished the ETRO Home Interiors line are combined with the 1950s vintage-inspired design and refined classic references. A mix of allusions that confirms the brand's eclecticism.*

*Generous, welcoming and comfortable, Mekong is an invitation to relaxation and conviviality. The sage green velvet upholstery dresses the sofa with a sophisticated luxury that evokes the Parisian pastry shops and cafes of the late 19th century. A delicate reference to classicism reinterpreted in a contemporary key, as evident in the presence of original decorative elements, such as the spheres used as feet. The curved lines of the sofa recall the fluidity and dynamism of a flowing river – a reference already present in the name – and are combined with the precious essence of dark Carbalho wood, used for the base of the sofa.*
