## Soho®

With Sanitary specialists the Soho® is also known as The Original. And rightly so, because Sealskin was the first to bring the industrial style to the bathroom world. This style is inspired by old-fashioned factories and warehouses, and can be recognised by its robust and sturdy finishes. With its bold lines, Soho® creates a unique industrial experience, with space and comfort as the most important starting points. This series distinguishes itself through its refined detailing, successfully translated into the contemporary shower.

# Avenue

The Avenue series finds its balance in form and function. Each detail has a consistent language and contains well thought-out functionalities. The minimalist approach provides a restrained but elegant appearance. This series offers innovative solutions and is ready for the bathroom of the future, thanks to the sleekly designed hinges. Avenue is durable and fits perfectly into the spirit of the times.

## Outline

The subtle frames and unique design elements of Sealskin Outline bring two worlds together: solid construction with an elegant appearance. All elements of this series are harmoniously connected. Spacious but with a robust character. It is the eye-catcher in every bathroom. With Outline you go for minimalism with an industrial touch.

## Edge

With great attention to detail, Sealskin Edge is full of smart features and practical solutions for a pleasant shower experience. Various models are equipped with an integrated towel hook and the swing door variants have an auto-close feature. The 2-metre high glass panels and the transparent sealings strips emphasise the timeless design. This range is finished with a Sealglas anti-limescale coating to reduce cleaning. Edge is designed to last a lifetime.

## Mix&Match

Mix&Match breathes versatility. It is unique in its class and gives a new dimension to the concept of flexibility. Showers are no longer purely functional. Spaciousness and individuality prevail. Choose the design, the colour and the glass decor. This dynamic series is astonishing and it's unrivalled in its versatility. Mix&Match creates a personal piece of design.

## Maintenance and accessories

Experts in maintenance. For optimal shower pleasure, at Sealskin we think about maintenance of our showers. All of the shower screens come with an anti-limescale coating, so they remain limescale-free for longer. We also offer special cleaning products that make maintenance easier.

Window and floor wipers are essential for cleaning the glass surface and your bathroom floor. Discover the various wipers in our range, in the colours chrome, stainless steel and black. The stylish look fits seamlessly into the sleek design of the showers.

Window and floor wipers

Deluxe window wiper

Chrome window wiper
