LIVING ROOM

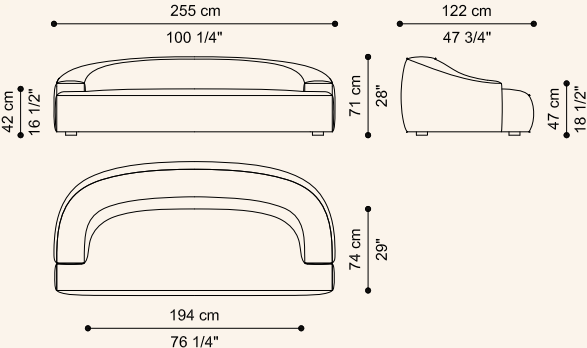

ASSAL SOFA

Assal is a sofa with soft and sensual shapes – an invitation to relaxation and conviviality. Its clean design and subtle elegance are enhanced by the soft leather upholstery with decorative stitching in a delicate shade of beige, while the cushions with animal prints by designer Fausto Puglisi - declined this year in neutral shades for a refined tone on tone effect - complete the whole, enhancing its voluptuous volumes.

The sinuous lines of the sofa, a reference to organic and natural shapes, confirm the evocative power of the name Assal, an African lake in Djibouti, that transports us to the wild lands that have always been a source of inspiration for Roberto Cavalli world. A reference which is now more delicate and lighter, helping to transform the living room into a welcoming and suggestive domestic landscape.
